PROFESSIONAL SUMMARY

Aspiring Frontend Developer with a strong problem-solving mindset and a passion for building responsive, user-friendly web applications. Currently enrolled in the Web Development program at Saylani Mass IT Training Center. Skilled in core frontend technologies and actively seeking a Frontend Internship, remote or on-site, to apply my skills, contribute to real projects, and gain practical team experience. Focused on strengthening frontend development and gradually moving toward backend technologies.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, Bootstrap, JavaScript (ES6), API Integration, Responsive Web Design
Version Control	Git and GitHub
Currently Learning	React.js, and Backend Development
Soft Skills	Problem-Solving, Leadership, Public Speaking (Urdu/English), Time Management

EDUCATION

Intermediate - Computer Science (ICS)

Hadaf College, Peshawar | Expected Completion: July 2026

PROFESSIONAL TRAINING

Frontend Development Trainee

Saylani Mass IT Training Center, Peshawar | July 2025 - Present

- Learnt modern HTML, CSS, Bootstrap, and JavaScript through structured training and hands-on projects.
- Practicing responsive layouts, JavaScript logic building, debugging, and interactive UI development.
- Improving development speed and code quality through coding tasks, peer learning, and practical projects.
- Preparing to advance into React.js and backend development, including Node.js and Express.js.

PROJECTS & PRACTICAL WORK

Responsive Web Design Projects

Built multiple practice-based landing pages and multi-page websites using HTML, CSS, and Bootstrap, with a focus on mobile-first layouts, clean UI structure, and responsive compatibility.

Interactive JavaScript Components

Developed JavaScript-based features such as form validation, counters, dynamic UI components, interactive navigation menus, and small logic-based applications.

Version Control Workflow

Managed personal projects using Git and GitHub to track changes, organize code, document progress, and practice a professional development workflow.

API-Based Practice Projects

Practiced working with APIs and JSON data through projects such as country details, weather information, E-Commerce website and other frontend data-display applications.

Portfolio and Startup Work

Built a personal portfolio and developing AfnixByte as a growing web development brand focused on clean, responsive, and practical digital solutions.

PROFESSIONAL DEVELOPMENT

Soft Skills Training

Completed a full Soft Skills Training Program under the PSEB project, “Prime Minister's Special Initiative for Youth Soft Skills Development,” strengthening communication, teamwork, time management, problem-solving, professionalism, leadership, and the ability to work effectively under pressure.
